

Adejumo Olaoluwa

Web Developer | Full-Stack (React, Next.js, TypeScript, Supabase)

Lagos, Nigeria +234 816 9011311 prettykokel23@gmail.com github.com/LifeofaBlvckman blvckman.online

PROFESSIONAL SUMMARY

Web developer handling all implementation for Sojourn Nigeria (sojourn.ng), a live shortlet booking platform across four Nigerian cities, built on Next.js, NestJS and Supabase. Has fixed payment-critical Paystack issues, built booking logic and run domain, database and email migrations. Since 2024 has built and deployed more than 10 client websites in Nigeria and the UK, including e-commerce storefronts and portfolio sites. ALX Africa certified in Backend Development and AI for Creatives; currently learning cybersecurity.

TECHNICAL SKILLS

Backend and APIs	Node.js, NestJS, Flask, REST APIs, WebSockets
Frontend	React, Next.js, Three.js, responsive HTML and CSS, Lottie animations
Databases	Supabase (PostgreSQL), MySQL
Payments and Integrations	Paystack, Stripe, Resend, Claude API (Anthropic SDK)
Deployment and Tools	Render, Vercel, Netlify, Git, GitHub, Postman, DNS configuration, Claude Code
Security	Cybersecurity (currently learning)
Spoken Languages	English (Fluent), Yoruba (Fluent)

WORK EXPERIENCE

Software Developer, Sojourn Nigeria (sojourn.ng) Mar 2026 – Present

Lagos | SEO Specialist, promoted to Developer Aug 2026 | TypeScript, Next.js, NestJS, Supabase

- Took over as sole developer of a live booking platform serving four cities, owning every change from requirement to release.
- Fixed a critical payment bug that left paid Paystack bookings unconfirmed, so bookings now confirm automatically on payment.
- Built booking holds that reserve dates during checkout and auto-cancel unpaid bookings, releasing those dates to other guests.
- Migrated the platform database and moved the live site to the sojourn.ng domain.
- Restored transactional email by migrating from Zoho SMTP to Resend after SMTP was blocked.
- Fixed location search by standardising city data, and corrected same-day check-ins.
- Set up technical SEO (metadata, sitemap, robots.txt) and prototyped a Claude API chatbot.

Freelance Web Developer 2024 – Present

Self-employed, Lagos (Remote) | HTML, CSS, JavaScript, Supabase, Netlify, Vercel

- Design, build and deploy client websites end to end, with more than 10 sites delivered.
- Built primusige.com, a photography portfolio with video reel sections and an events showcase.
- Built CityGirl Wardrobe, a Supabase-backed fashion storefront with an admin panel for managing products.
- Delivered a study-abroad site for Neo Consult (Abuja and Leeds) with an AI chatbot.
- Launched qumifashion.com on Netlify and maintain it, including domain setup, branding fixes and video features.
- Building the website for a UK-based education agency (in progress).

PROJECTS

Eko Streets

React, Three.js (React Three Fiber), Rapier, Vite, Node.js

- Built a Lagos-set open-world browser game with real city districts, nine story missions, drivable vehicles and a police wanted system.
- Added real-time multiplayer for rooms of up to 16 players, with chat, shared traffic and saved games.

CERTIFICATIONS AND EDUCATION

ALX Africa: Backend Developer Certificate; AI for Creatives Certificate

Completed

B.Sc. Computer Science, National Open University of Nigeria (NOUN)
